SCHOOL TOUR RISK ASSESSMENT INFORMATION

As with any exposure to the general public of a controlled area such as a kitchen, restaurant or back of house space there will be certain risks involved. OH&S regulations state that controlling measures should be put in place to reduce as much risk as possible. All due care is taken by the Chef's and Management team in house and to lessen a risk all strategic measures must be taken. The following risks and/or hazards were identified while on a Tour of the Production Kitchen for Sydney Tower Dining:

Please note the assessment of how likely the mentioned risks are to take place and how likely they are to cause injury or illness was based on the Assessment Scale outlined below as per Australian Work Cover Standards.

1 How severely could it hurt someone or how ill could it make someone?	2 How likely is it to be that bad?			
	++ very likely could happen any time	+ likely could happen sometime	- unlikely could happen, but very rarely	-- very unlikely could happen, but probably never will
☠ kill or cause permanent disability or ill health	1	1	2	3
!!! long term illness or serious injury	1	2	3	4
!! medical attention and several days off work	2	3	4	5
! first aid needed	3	4	5	6

For Risk Scores:

- 1-2 Immediate action is required. This should be brought to the immediate attention of the relevant manager (if not done so already), the HR Manager. The risk should be eliminated or controlled immediately.
- 3-4 Action is to be prioritized by the relevant manager. The risk should be eliminated or controlled in a timely manner as determined by the manager in consultation with OHS committee.
- 5-6 The risk should be eliminated or controlled when other risks with higher risk scores have been controlled/eliminated. This is to be actioned by the OHS Manger, in consultation with operational managers and employee representatives.

Based on the above information the School Tour of Sydney Tower Dining and its Production Kitchen should be classed as a LOW RISK activity. All due care is taken while the students are on site. First aid trained staff, equipment and instructions are readily available and immediate access by Managers and Supervisors to all Tour areas is available.

As the Tower is an Australian icon there are certain situations that would remain out of the control of Sydney Tower Dining Operations such as local emergencies, accidents and threats. Should any of these arise, all instructions from emergency services and government bodies will be followed. Sydney Tower Dining Operations monitors current OH&S systems and procedures, and works on a continuous improvement basis.
